Moman Double Ballhead

Moman Super Clamp

With the money saved you will be able to build up good quality grip kit that will do exactly the same job as the more expensive gear, there are some cheaper options to Moman, but it's of poor quality and won't last and sometimes just does not do the job.

By combining the Moman Double Ball Head Mount with the Super Clamp Pliers, you have a very versatile bit of grip kit that can hold, flags, silks and scrims and act as a mini magic arm to position virtually anything at any position and angle you like.

Well Designed Adjust Knob

The locking and "opening mouth" are flexibly controlled by CNC Red Knob, simple operation and saving energy.

With a wide range of uses the Super Clamp is a versatile tool that holds just about anything: cameras, lights, umbrellas, hooks, shelves, plate glass, cross bars, used in photography equipment setup and other work or normal life environment.

1/4" & 3/8" Screw Thread The Crab Clamp can be installed on the camera, flash, LED lights through some screw adapters'

Well Designed Adjust Knob The locking and opening of the mouth are controlled by the CNC Red Knob, simple operation.

This super clamp is easy to install and quick remove

Non-slip Rubbers Meshing part is covered with non-slip rubber pad, it can increase the friction and reduce scratches.

Solid Construction Weighs only 50g, made of CNC aluminum alloy and stainless steel screw, light-weight and durable
